

Barent Langwell

Full Stack Developer and Educator

I'm a junior developer with a focus on MERN Stack and Python. I'm seeking a role in which I can build things and continue to refine my skills as a programmer.

Experience

General Assembly

Instructional Associate - Front End Web Development

February 2021 – Present

I work with a cohort of fifteen front end web development students. I conduct tri-weekly office hours and deliver guest lectures on front end topics like semantic HTML, responsive design, and Javascript fundamentals.

Teaching Assistant - Software Engineering Immersive

December 2020 – Present

I support three immersive software engineering cohorts learning a wide breadth of full stack technologies including Node.js with Express, SQL/NoSQL databases, React, and Python with Flask. I work with students via office hours, one-on-one tutoring sessions, and in-class debugging.

Software Engineering Fellow

July 2020 – November 2020

I completed a full-time, 480-hour software engineering program focused on the real-world application of engineering principles via technologies including Javascript, Node.js, React, Python, Django, PostgreSQL, and MongoDB.

Redlands Unified School District

Instructional Paraprofessional - Special Education

October 2017 - July 2019

I assisted a class of fifteen students with moderate to severe disabilities. Worked with with students one-on-one and lead classroom activities.
